Education

KIET Group of Institutions [AKTU]

Bachelor of technology in Computer Science and Information Technology

Sep. 2023 – June 2027

Ghaziabad, UP

St. Paul's Inter College

Intermediate [CBSE]

April 2022 – June 2023

Shahjahanpur, UP

Experience

Xenosis IT Solutions

15 October 2024 – 15 December 2024)

Web Development Intern

Ghaziabad, UP

- Built and maintained responsive web applications using HTML, CSS, JavaScript, and React.js to improve usability and design consistency.
- Spearheaded the integration of 5 APIs in collaboration with design and backend teams, leading to a smoother user interface experience that received positive feedback from beta testers during product development.
- Improved website performance by optimizing code, reducing page load time by 25 percent, and ensuring cross-browser compatibility.
- Conducted thorough debugging and quality assurance testing to achieve 99 percent error-free deployment.

Projects

Responsive Portfolio | HTML, CSS, JavaScript, Responsive Design

May 2024

- Designed interactive flip card animations to highlight key information, boosting engagement by 15 percent
- Developed a responsive contact form with validation to enhance lead generation.
- Developed hover effects and animations that increased user interaction time by 30 seconds per session, enhancing visual appeal and promoting a more engaging online experience for website visitors.

Painting Website | HTML, CSS, JavaScript, DOM Manipulation

July 2024

- Implemented a full bucket tool to simplify color-filling functionality, enhancing usability for diverse users.
- Developed an adjustable eraser tool and customizable brush sizes, increasing user engagement by 20 percent
- Leveraged DOM manipulation techniques to create a responsive and interactive user interface.
- Championed seamless integration of interactive features using sophisticated DOM methods; findings led to fixing three major causes of crashes while elevating overall site stability and performance satisfaction from end-users.

Safe City Project | HTML, CSS, JavaScript, Bootstrap, Node.js, MongoDB

November 2024

- Designed and implemented map navigation and real-time tracking systems, improving safety measures for travelers.
- Crafted an intuitive emergency alert protocol within the navigation app that allowed users to send alerts in less than 3 seconds; streamlined incident reporting processes for over 1,000 simulated travelers.
- Delivered a compelling presentation of the core concept at a hackathon, resulting in the project's selection for further development; collaborated as a frontend developer to create an intuitive user experience that attracted over 200 participants.

Technical Skills

Languages: C++, C, HTML/CSS, JavaScript

Tools: VS Code, Git, Github

Libraries/Frameworks: React.js
